

Automatic Shrink Packaging Machine LB-920

A large variety of mid-range, multi-purpose applications are covered by LB-920 flow wrapper. The wrapper is perfect for products such as cosmetic, grocery and food item. To address markets where flexibility and fast changeovers are required, the machine uses servo system control and pre-programmable recipes. Mechanical adjustments are easy to make and are repeatable. Outstanding sealing system assures tight, neat packages at high-production speeds.

Feature:

- Reciprocating sealing method provides consistent package quality at high speeds
- Servo drive system ensures machine reliability and stability
- Heavy duty frame structure reduces vibration during high speed operation
- Provides high seal integrity
- Touch panel with user friendly interface provides fast reaction and convenient manipulation.
- Flexible forming mould for different product sizes.
- End seal design ease of cleanup / wipe-down

| Model | LB-920 |
|--------------------------|---------------------------------|
| Machine Size | 6020 x 1180 x 1650 |
| L x W x H (mm) | |
| End Seal Bar (mm) | 230 |
| Packing Size | (100~300) x (30~100) x (10~100) |
| L x W x H (mm) | |
| Voltage | 220V / 1PH |
| Power (Kw) | 3.5 Kw |
| Pneumatic | 55psi, 8kg/sq.cm |
