

High Precision Automatic Labeling Machine HL-T-300

HL-T-300 Automatic card labeling machine be exclusively used in all kinds of cards labeling and all kinds of plastic surface sheets, protection film Labeling,

High precision, no bubble film; have the automatic identification function is enabled automatically according to the different products with different label head work.

Core working principle: The sensor detects the signal to return products after labeling control system, signal processed by PLC, posted at the appropriate time send label attached to the product set position, products covered through the calibration device, label coated firmly, a label attached to complete action

Technical Parameter:

Model	HL-T-300	
Labeling Accuracy	±1mm	
Labeling Speed	40-150pcs/min	
Applicable Dimensions	Length	40mm-400mm
	Width	40mm-200mm
	Height	0.2mm-150mm
Applicable Labe Size	Length	6mm-250mm
	Width	20mm-160mm
Power Supply	220V/50HZ	
Weight	180KG	
Machine Size (LxWxH)	About 1600mm x 780mm x 1400mm	
Delivery Time	10-15 Days	
Type	Manufacture, Factory, Supplier	
Packaging	Wooden box	
Shipping Method	Sea.Air and Express	
Payment Term	L/C, T/T, Money Graml etc	

Characteristics of Function:

- Optional ribbon code printer can print production date and batch number, and reduce the bottle packaging procedure to boost production efficiency.
- Optional automatic turntable machine can be directly connected to the front end of the production line, feeding bottle into the labeling machine automatically
- Optional hot-stamping coder or inkjet coder
- Automatic feeding function (according to the product)
- Automatic collecting (according to the product)
- Additional labeling equipment
- Circumferential labeling through positioning
- Other functions (according to the customer's requirements).
