

Automatic Powder Packing Machine HXL-F100

- HXL-F series automatic powder packaging machine 304 stainless steel.
- Photoelectric sensor for cutting the length screw-type dosing
- High-precision digital display temperature controller automatically complete bag making. Metering, filling, sealing, printing and slitting.
- Packaging materials: paper / polyethylene polyester / aluminum foil / polyethylene nylon / polyethylene paper and so on.

Optional equipment: coder (ribbon type, ink wheel type); computer control device.

Parameter:

MODEL	HXL-F100
SPEED (bag/min.)	30-60
PACKING RANG (g)	1-100
POWER kw/V)	2.4/220
WIDTH OF FLIM (mm)	60-240
LENGTH OF BAG (mm)	50-150
WIDTH OF BAG (mm)	25-120
SIZE OF MACHINE (mm)	760×980×1700
WEIGHT OF MACHINE (kg)	310
