

G73K High Speed Automatic Granule and Powder Packaging Machine with Multi-Lanes

It is suitable packing powdery, granule and seeds-like products of food, medicine, cosmetics and chemicals etc.

Features:

1. It is an automatic multi-lines powder or grain filling and packing machine with high productivity.
2. Adopting single roller filling system, which ensures tight and beautiful sealing with excellent stability.
3. The machine can perform multi-lines packaging (with effective sealing width 500mm), which ensures efficient production.
4. With optional photoelectric control device, you can pack products with or without color mark.

Technical data:

Model	G73K
Product name	High Speed Automatic Granule and Powder; Packaging Machine with Multi-lanes
Filling range	1~50cc(the filling range depends on the feeding device and product properties)
Bag size	L: 40~110mm; W:30~80mm
Bag type	Four sides seal
Bag length/width	L: 45~120mm(with film roll replaced); W:11~65mm
Packing speed	25~50bags/min(the actual speed depends on the size of products, packing materials, etc.)
Product name	Automatic Multiple Lanes Grain and Powder Filling and Packing Machine
Max. Film width	500mm
Max. Film roll diameter	Φ300mm
Power supply	220V, 50Hz, 3.5KW
Dimension	1400*1000*2200mm (L*W*H)
Weight	750KGS
