

## ***BHX-1C Automatic Rotating Capping Machine***

This machine is available for capping bottles in different materials and specifications. It can be used for screwing anti-theft caps, pressure caps, and caps that can prevent children from opening, etc. It boasts of permanent wrenching arm, adjustable pressure, compact and reasonable construction.

### **Main Performance Parameter:**

- Applicable Dimension:  $\Phi 40\text{mm}\sim\Phi 90\text{mm}$
- Applicable Height: 80mm~250mm
- Cap Specification:  $\Phi 15\text{mm}\sim\Phi 50\text{mm}$
- Speed:  $\leq 3000$  bottle/hour
- Air Pressure: 0.6~0.8Mpa
- Air Consumption: 50L/min
- Power Source: AC 220V/50Hz
- Power: 2Kw
- Weight: about 600Kg
- Machine dimension (L×W×H) : 2000mm×1500mm×1500mm
