

Automatic Tube Filling Sealing Machine YLM-ATFM-80C

This tube filler, is for filling and sealing both aluminum tube and plastic tube. With combination sealing unit, one machine can do both folding sealing for aluminum tubes and heat sealing for laminate tubes.

This tube filler sealer has more options for sealing, and can do both folding sealing for aluminum tubes and heat sealing for plastic tubes, with only minor and very quick changeovers. Its combination sealing unit is suitable for both plastic/laminate tubes and aluminum tubes. It means it is suitable for all tube materials. Both aluminum tubes and plastic/laminate tubes can be filled and sealed on one machine.

Parameters:

Model	YLM-ATFM-80C
Power Supply	380V / 3 Phase / AC / 50 Hz
Main Power	7.0kw
Speed	80pcs/min
Tube Diameter	Aluminum tube: 10-30mm
	Plastic tube and laminated tube: 10-50mm
Filling volume	Aluminum tube: 1-150ml
	Plastic tube and laminated tube: 1-250ml
Filling precision	≤+/-1%
Air pressure	0.4-0.6 MPa
Hopper volume	40L
