

BM-630 Hot Sale Round Water Bottle Automatic Adhesive Sticker Labeling Machine

This kind of Automatic Adhesive Labeling Machine is suitable for flat bottle to label control system adopted Panasonic Stepper two-axis PLC control, collocation large LCD human interface, it is easy to operate, servo motor control label. This machine is made of SUS304 and aluminum alloy.

Brief Introduction:

1. Heavy-duty construction utilizes over-sized drive components combined with an aluminum and stainless steel base frame for years of dependable service.
2. Various product infeed systems are available that provide precise product spacing and orientation. It can be used stand alone or integrated in-line and matching filling equipment speeds.
3. Advanced high torque micro-stepping driven applicators include ratio-offset and speed-following accurate and reliable application of a wide variety of label materials.
4. Designed for the application of front and/or back panel labels with the capability to label containers that are round, square, oval or rectangular.

Features:

1. Advanced easy to operate, simple and intuitive man-machine interface system, the function is all ready.
2. Adopt Japan Panasonic control system, make the machine run more stable and longer life.
3. Dividing device, the applicability of any type of the diameter of the bottle without replacement parts, quick adjustment.

Technical parameters:

Type	BM-630
Production speed	1-30m/min
Labeling accuracy	±1mm
Labeling max width	120 mm
Weight	180KG
Label inner diameter	Φ76.2mm
Label outer diameter	Φ350mm
Outline size	2100x 900x 1300mm
Using power	220 V 50Hz 500W
