

ZS-series Vibration Sifter Machine

This machine is used in pharmaceutical, chemical and food industries. It is ideal for raw material of mixture of powder, small particles and bigger granule and the continuous production process.

Feature:

This machine is composed of chute, oscillating chamber, shafts connector and motor. There is eccentric wheel, rubber parts, major shaft, bearings and so on. It has many advantages such as compact structure, small size, less powder, low noise, high productivity, low energy consumption, easy-move & maintenance and so on.

Technical Parameters:

Model	ZS-350	ZS-515	ZS-650
Capacity kg/h	40-500	60-600	80-800
Meshes	12-200	12-200	12-200
Power kw	0.55	0.55	0.55
Speed rpm	1380	1370	1370
Overall dimension	540×540×1060	710×710×1290	880×880×1350
Weight kg	100	180	250

Model	ZS-800	ZS-1000	ZS-1500
Capacity kg/h	150-1200	300-2000	350-2800
Meshes	12-200	5-325	5-325
Power kw	0.75	1.5	2.2
Speed rpm	1500	1500	1500
Overall dimension	1000×1000×1400	1100×1100×1200	1600×1600×1200
Weight kg	300	350	400
