

Capping Machine for Aluminum Metal Caps

Motorized ROPP or screw capping machine for aluminum metal caps used for wine bottle capping, pharmaceutical bottle capping, glass bottle capping pet bottle capping etc. This machine height can be adjusted for various size bottles and can be controlled by switch on the machine or by pedal. The heads of the machine can be adjusted as per cap size and cap type further this is a compact motorized machine where the bottle is held manually below the revolving head which tightens the bottle cap. Machine finds application in various fields like chemical, pharmaceutical, food, beverage, and nutraceutical and R& D labs.

Technical Specification

Power supply	220V / 50Hz
Power	370 watts
Screw cap diameter	20 mm to 40 mm
Bottle height	100 mm to 330 mm
Production speed	20 to 30 bpm
Machine size	65cm x 20cm x 92cm
Machine weight	65 kg approx
