

Automatic Screw Type Capping Machine-CE-1/CDX

The capping machine is based on the international advanced models to improve the design, quick capping speed, high pass rate and convenient operation.

Applicable to different bottle-shaped screw caps in the food, pharmaceutical, cosmetic, pesticide, cosmetics and other industries.

The speed motors are used for capping, bottle clamping, conveying and capping respectively. The machine is highly automated and stable.

Easy to use, no spare parts required when replacing bottles or caps, just make adjustments

Automatic Capping Machine Highlight:

- Stainless steel + lightweight aluminum production
- The machine has good compatibility, can apply a variety of common caps. And the operation is simple.
- Excellent flexibility, can be adjusted according to the bottle height and cap size, plastic according to customer requirements adjust.
- The cover cover wheel wear-resistant silicone, does not hurt the cap.
- On the duckbill cover (pump head, nozzle,) more advantages, uniform mouth direction.
- Can be used in the filling production line.

Technical Parameter:

Model	CE-1-CDX
Voltage	220v 50/60Hz
Air pressure	0.5-0.7Mpa
SS Material	SUS304
Small cylinder	Airtac
PLC	Delta
Diameter of capping	25-55mm
Capping heads	1
Capping speed	20-25 bottles/min
Machine size (LxWxH)	2000 x 1050 x 1500mm
Weight	250kg
