

Eliquid Bottle Cartoning Machine

Widely used in automatic package of round, flat and all kinds of special shaped bottles in e liquid, pharmacy, cosmetic, health care and other fields.

Features:

- Adopts frequency control speed and PLC control system.
- Control elements adopts imported programmable controller, it can adjust the work speed and parameters flexibly.
- Unqualified box will be eliminated immediately.
- It can simultaneously deals with fold leaflet and printing batch number.
- The machine can also work together with labeling machine.

Product Description:

Capacity	70-110 box/min
Carton specifications	(65-110)*(28-53)*(28-53)(L*W*H)
Carton paper	250-300g/m ² (white board) /300-350g/m ² (gray board)
Gas consumption	5-20L/min
Compressed air	0.5-0.8Mpa
Total power	1.4KW
Noise	≤70dB
Dimension	2500*960*1650mm(L*W*H)
