

## NJP-3200D Automatic Hard Capsule Filling Machine

The whole machine supports modular design, can quickly clean and replace the mould, equipped with a leading IPC operator interface; Has a quick and convenient modular filling compaction mechanism; With a brush blowing air cleaning agent position; All-round seal capsules, simple and lightweight without damaging the capsule.

### Main Technical Data

Model	NJP-2200D	NJP-3200D
No.of die orifice	19	23
Max output(capsule/hour)	132000	192000
Vacuum	-0.08 ~ -0.04 Mpa	
Capsule number	00#-5#	
Filling percentage	≥99.9%	
Filling difference	<±3	
Idle load noise dB(A)	<73	
Power	380V 50HZ 8KW	380V 50HZ 10KW
Size L×W×H(MM)	1200×1070×2100	1420×1180×2125
Weight (kg)	2500	3000
※Data printing function, pellet device, dry vacuum pump (for your choice)
