

## *Automatic Round Bottle Labeling Machine MT-400*

### **Application**

- Use: widely used in cosmetics industry.
- Label applicable: adhesive labels; adhesive films; electronic supervision code, bar code etc.
- The clever design which allow user to mechanically adjust some structure combination and label winding, makes it easy to adjust the labeling position freely (it can be fixed easily after adjustment). All these make the change of different products and winding of labels more simple and saving time.

### **Features**

- Labeling machine produced accordance CE certificated.
- Automatic Labeling with container for bottle feeding, labor and space saved.
- Simple operation, labeling controlled by PLC and touch screen.
- No products, No labeling, Brand Named Sensors applied, Labeling Accuracy is high.
- Strong S/S frame construction.
- Work independently or connected to a production line.
- High Speed Labeling, suitable for big batch production.

### **Workflow:**

- Auto feeding products
- The sensor detect the products
- Auto labeling

## Options Function

- Coder Printer to print batch number, expiry date and so on on the label when labeling
- Clear Label sensor for round labeling
- Remote control function is available

## Parameter:

Speed	2400-4800 bph (related to product size)
Labeling accuracy	+/- 1mm
Products applicable	9mm≤D≤25mm, Height≤150mm
	(customizable)
labels applicable	adhesive stickers/opaque or transparent
	10mm<W<80mm, 10mm<L<230mm
	Customize machine for bigger labels
Power supply	220V 50/60hz 1kw
Application	Round or cylindrical bottle labeling, tube labeling
Air supply	0.6MPa(If with a code printer)
Feature	PLC, Touch Screen, photoelectric sensor
