

## HF-1500M Efficient and High-speed Steam Tunnels

Steam shrink tunnel is used for shrinking sleeve labels to label kinds of bottles: different and irregular round bottles, square bottles, flat bottles and women-shaped bottles. By shrinking PVC or PET sleeve labels to seal bottles caps /necks, cover bottles body even shrink wrap bottle bottom.

### Parameters:

Models	HF-1500M
Length of tunnel	1.5meters
Blower powder	Ø12, 0.25KW
Powder supply of blower	220V 3P 60Hz or 220V 1P 50Hz
Entrance /exit height	Max 350mm
Entrance /exit width	130~210mm (fixed size once confirmed)
Running pressure	Max 0.6Mpa
Weight	200Kg
Steam consumption	21kg/h
Conveyor speed	0~35m/minute
Outline size (m)	L1.5*W0.4*H1.5
