

ZJS-2000 Semi Automatic Auger Filling Machine

ZJS-2000 auger filler can be used semi-automatic for filling powder in bags, bottles, jars and boxes. Also it can be equipped with the ZVF series vertical packaging machine to realize automatic powder material weighing, filling and packaging

Advantage:

- 1· Servo motor control auger filling
- 2· With full color Touch Screen for better operating of the machine
- 3· Can be detached for easy clean
- 4· Simple and compact in design
- 5· All stainless steel product contact parts. Non-contact parts are stainless steel and aluminum.

Specifications:

Model	ZJF-2000
Weighing Range	10-3000g
Weighing Accuracy	±0.2-2g
Max. Weighing Speed	10-50 WPM
Hopper Volume	3000ml
Control System	MCU
Operation Panel	7 inch touch screen
Power Supply	AC220V ±10% ,50Hz(60Hz) 1KW
Net Weight	250KG
