

## 5 Gallon Water Bottle Filling Line GF1818

### Description:

We produce a complete production line including water treatment, water cleaner, labeling machine, plastic injection machine, blow mounding machine and shrink-wrapping packing machine. The bottle's size can be decided by client. This production line can fill mineral water, carbonated drinking, juice and so on.

Fit for home water dispenser use. We have 5 gallon filling line from 100BPH-2400BPH.

### Technical data:

Type	GF1818
Power	220V±5% 50Hz
	380V±5% 50Hz
Input power ( KW)	1.12KW
Bottle's spec (mm)	Φ270×490×Φ56
	Φ230×415×Φ56
Bottle's volume	5gallon or 3 gallon
Capsule's spec (mm)	Φ58×40
The capability of compress air	P≥0.5MPa
Wash bottle's capability	100buckets/H
Bottle filling capacity	100buckets/H
Out size (mm)	2670×530×1520

Weight (kg)	N.W (Kg)	1940
The direction of bottle output		Bottle output with left ro right direction
Wash bottle's capability		100buckets/H
Bottle filling capacity		100buckets/H
Out size (mm)		2670×530×1520
Weight (kg)	N.W (Kg)	1940
The direction of bottle output		Bottle output with left ro right direction
