

## Automatic Shrinking Machine (with tray) ST6030AH

ST6030AF supplies counting, full-column automatic shrink without tray, suitable for various of bottles and bottled drinks, and provides single or double row of the bottle without bottom-tray. It is full-column sharing ST-6030AH, It is pilling, wrapping, sealing, shrinking, cooling automatically. The whole producing process adopts the Germany advanced technology based on European standard. The electrical units are chosen from international famous companies. Such as: OMRON, SICK, NAIS, MITSUBISHI and so on. The packed goods is neatness, compact, suitable for long transportation.

### Scope of Application:

Suitable for such products as pop-top cans, glass bottles, beer and mineral water It also can be packed wood, round steel, china steel and so on. Applicable to PVC and PE shrink film.

### Technical Parameters:

Model	ST6030AH	SM6540
Horizontal Height and length of infeed Conveyor	850mm/2500mm	
Max packing dimension(mm)	L500×W400×H450	W650×H400×L Unlimited
Minium packing size	280×100×100mm	
Packing Speed	6-10pcs/minute	15m/min
Voltage	220V/50Hz	380V/50Hz
Rated Power	2KW	24KW
Sealing time/Shrink time/Temperature	0.5-1.5S/0-0.6S/0 -250 °C	
Width/Thickness of the Film	MA×600mm/0.04 -0.12mm	
Dimension	L2500×W1430×H2100mm	L3200×W950×H1580mm
Gross weight	600kg	400kg
Air pressure of working	4-8Mpa	
Shrink film	PE POF PVC	PE POF PVC
