

SH18-18-6 Automatic Water PET Bottle Filling Machine

Function and Features:

1. This Machine can be used in pure water, mineral water, fruit juice and fruit wine, etc. For washing filling capping controlled by PLC.
2. The gravity fixed liquid surface filling is fast.
3. The magnetic torque is used for screw capping.
4. The Machine by PLC automatic control, the production capacity can be displayed digitally and can be adjusted conveniently.

Technical Parameters:

Model	SH18-18-6
Production capacity	3000b/h(1500ml)
Way of filling	micro-negative pressure filling
Filling precision	± 5mm
Polyester bottle standard	Bottle Diameter f50-f92mm; Height:150-320mm
Suitable cap shape	Plastic cap
Water pressure of washing bottle	0.2-0.25Mpa
Water consumption for water bottle	1600kg/h
Gas source pressure	0.4Mpa
Total Weight	3500Kg
Dimension	3100*2300*2800mm
