

## Automatic Bottle Edible Oil Filling & Capping Machine LPH08

This Type filling machine is a high-tech product designed and developed by our company. It suits for different viscosity of water agent, semi-fluid and paste, it is widely used in the product filling of foodstuff, cosmetics, medicine, grease, daily chemical industry, detergent, pesticide and chemical industry. Using the straight filling way, may be used in the different vessels, needn't add any parts.

### Application:

<b>Function:</b> Filling machine (Volumetric type)	
<b>Suitable for:</b> Plastic bottle /Glass bottle	<b>Bottle sizes:</b> 1L / 2L / 3L / 25L
<b>Filling system:</b> Volumetric filling type	<b>Capacity:</b> 1000 ~4500BPH
<b>Application:</b> Cooking Oil / Motor oil / Detergent / cleaning liquid / shampoo	

### Technical Data:

Model	LPH04	LPH06	LPH08	LPH10	LPH12	LPH16
Capacity: (1L)	800bph	1200bph	1800bph	2300bph	3000bph	4000bph
Filling heads	4heads	6heads	8heads	10heads	12heads	16heads
Max bottle sizes	1L/2L/3L/5L	1L/2L/3L/5L	1L/2L/3L/5L	1L/2L/3L	1L/2L/3L	1L/2L
Filling Precision	+/- 0.5%					
Working power	220VAC					
Air pressure	6~7 kg/cm <sup>2</sup>					
Air consumption	1m <sup>3</sup> /min					
Total power	3.2kw	3.5kw	4.2kw	5.2kw	6kw	7.5kw
Height	2.3m					
Weight	1500kg	1750kg	1900kg	2200kg	2500kg	2800kg
