

## ZK-5Z2-6F1 Intelligent Vacuum Packing Machine

- Automatic metering, filling, two-side and six-side shaping vacuumed, sealing.
- PLC and operation console made by OMRON, possess high reliabilities, friendly interface and easy operation.
- Weight portion uses high accuracy sensor and intelligent control panel to realize high accuracy and fast speed.
- Lots of imported pneumatic elements are used, which show simplified structure, reliable operation and easy repairing.
- Fault display function and online assistance system.

### Rang of Application:

The plastic bag metering packaging for dry granules in grain, food and pharmacy industries, with two-sided vacuum shaping function.

### Technical Parameter:

Model	Rated packing weight(kg)	Packing Accuracy	Division value(g)	Packing speed(bags/h)	Power&Air	Air
six-side shaping	0.5-1	x(0.2)	2	mini500	380V,50HZ,1.5KW	0.4~0.6Mpa
	2-5	x(0.2)	2	mini320		
two-side shaping	2.5-5	x(0.2)	2
