

Small Candy Box Horizontal Shrink Sleeve Applicator XHL-200H

The candy box is irregular flat shaped which is perfect suitable for horizontal sleeve the shrink film onto it. This machine is equipped with double head sleeve application unit which enable the machine reach top sleeve speed 150pcs per minute to automatically cut and sleeve the clear PETG material shrink film on to the products. The recirculated hot air heat shrink group tunnels are connected to the sleever to perfect heat shrink wrapping and close the top and bottom area of the candy box with low recirculated hot air. The shrink result is merely perfect which is visible in the shrink position of top and bottom area and side perforation line.

Technical Parameters:

Model	XHL-200H
Label Type	PVC/PET/OPS/PE/PLA shrinkable label
Labeling Position	Partial/Full Length/Top &Bottom Wrapped, etc.
Sleeve Labeling Type	Horizontal Sleeve Application
Labeling Speed	Max 9000/Hour
Product Shape	Round/Oval/Flat/Square, etc.
Product Material	PET, PP, PE, HDPE, Glass, Metal etc.
Suitable products	Lipstick, tiny bottle, eyebrow pencil, mark pen, battery, toothbrush, flat container, etc
Label Cutting	L:10-150mm H:10-200mm
Label Thickness	0.02mm ~ 0.13mm
Label Roll Diameter	Innerφ127mm Outerφ500mm
Machine Material	SUS 304 or SUS 316L
Main Machine Size	2200L*2000W*1800H(mm)
Power	AC 3P 380/220V 50/60Hz 5KW
