

CCE-450A Candy Packing Machine

This machine is suitable for biscuits, bread, moon cake, pie, fruit pies, candy, daily necessities, hardware parts, cartons or pallets and other solid regular objects packaging.

Product Features:

- 1.Compact structure, stable performance, simple operation.
- 2.Dual frequency conversion control, bag length cutting, without air conditioning, in one step, saving time and film.
- 3.Imported appliances, touch interface, convenient parameter setting.
- 4.Self-diagnostic function, clear failure display.
- 5.High sensitivity photoelectric eye tracking, which makes the sealing and cutting more accurate.
- 6.Temperature independent PID control, and better suited to a variety of materials coated.
- 7.Positioned stop function, without sticking knife fees film.
- 8.Turn the system simple, more reliable, and easier maintenance.
- 9.All the controls are achieved by software, convenient for function adjusting and technical upgrade, never backward.

Technical Parameters:

Bags size	L : 70~350mm
	W : 30~130mm
	H : 10~50mm
Longitudinal and transverse sealing strength	>15N/mm ²
Packing speed	30~160Bags/min
Packaging film width	80~450mm
Power Specifications	220V 50/60Hz 3KW
G.W.	800kg
Dimensions	4400*830*1700mm
