

QUALIPAK

VFFS-L100/VFFS-L300 Piston Filling Machine

As one of the most typical vertical form fill seal machines, Spack's automatic packing machines provide an affordable and reliable liquid filling solution. With the rugged structure and smooth operation, our volumetric packing machines will enhance your packing convenience.

Features:

- High versatility, speed, and precision in filling liquid products.
- Accurate liquid dispense to volumetrically achieve your desired weight.
- Easy-to-remove modular devices for easy maintenance.
- Dependable materials and construction to ensure long-term performance.

Specifications:

Model	VFFS-L100	VFFS-L300
Machine's Material	Stainless Steel 304 (SS304)	Stainless Steel 304 (SS304)
Voltage	220V 50-60Hz (Customizable)	220V 50-60Hz (Customizable)
Machine Speed	30-80 bags/minute	10-30 bags/minute
Bag Size Range	(L) 40-180mm (W) 10-150mm	(L) 200-280mm (W) 100-200mm
Weight Range	5-50g, 50-200g	200-500g, 500-1200g
Maximum Film Width	320mm	420mm
Total Power	1.5KW	2KW
Machine Weight	320kg	420kg
Machine Size	720x980x1680mm	950x1200x2100mm
