

Horizontal Pillow Automatic Packing Machine HT-1R

Feature

- It is applicable for packing freshly-made noodles and udong. It is designed for mass-producing multiple types of products.
- A variety of length changes in packaging is available without the need for parts replacement. For widths, the Guide Former should be replaced.
- Less error, and is easy operating.
- A flashing light is turned on 2 minutes before the film is finished. When the films are completely consumed, the machine will stop at its designated position.
- Ink Jet Printer and Thermal Carbon Paper Printer can be installed for the Sealing Device.
