

KIS-900 Rotary Cup Filling and Sealing Machine Roll Film

1. The equipment is made of high-quality 304 stainless steel and aluminum alloy, which meets GMP requirements.
2. Featured with automatic load cup, filling, sealing and output into one with a high degree of automation.
3. The filling accuracy is high, the electric eye automatically tracks and corrects the sealing position, and the sealing pattern is accurately aligned.
4. Using PLC and man-machine interface control, the operation is simple and clear.
5. Suitable for packing different material cups.
6. Ribbon date printer, UV, hopper with heating and mixing and plexiglass cover optional etc.

Technical Parameters:

Model	KIS900
voltage	110V/220V/380V
power	1.2KW
air pressure	0.5-0.7Mpa
cup diameter	customized
working speed	800-900cups/h
filling volume	According to cup volume
machine dimension	120x150x170cm
machine weight	350kgs
