

RD-210 Rotary Food Drinks Packing Machine

Pre-made pouch rotary machine suitable for powder, particle, solid, liquid, thick, tablet packaging

Model features:

1. Combined model, the area occupied by the site is smaller
2. Independent triangle film shaping (bag forming device), avoid staggered edge; perfect film tension control; No power brake.
3. Horizontal independent sealing bar, quick and convenient replacement for different sealing; bottom multi-sealing; perfect low temperature & high-pressure sealing design; pressure well-distributed, higher sealing strength; smoother surface, more beautiful appearance, more convenient and faster adjustment
4. Staggered edge and cut edge design are adopted to make the bag appearance more beautiful.
5. Servo control, stably pulling, higher precision; bigger torque pulling, suitable for different size
6. One-time bag taking, bag opening, detection, blanking, nitrogen filling, sealing all actions, to solve the problem of error caused by multiple bag receiving actions.

Technical Parameter:

Packaging Capacity :	50-100bag/min
Air Consumption :	150NL/min
Power :	8KW
Weight :	1500KG
Pouch Width :	90-210mm
Pouch Length:	90-370mm
Max Filling Capacity :	1200ml

Rotary filling machine:

L*W*H: 1.65*1.45*1.5M
Packaging Capacity : 40-80bag/min
Air Consumption : 50NL/min
Power : 3KW
Weight : 800KG
Pouch Width : 90-210mm
Pouch Length: 80-370mm
Max Filling Capacity : 3000ml
