

## *Voltage Chocolate Coater Machine DS-BC200*

LST Belt Chocolate Coating machine and Chocolate Polishing machine are mainly used for making chocolate bean products stuffed with peanuts, almonds, raisin, puffed rice balls, jelly candies, hard candies, QQ candies etc. LST made the first Belt Chocolate Coating Machine in China. We have been constantly improving it over the past few years. It is durable and works perfectly.

### **Features & Advantages**

1. Automatic production, large output, save manpower.
2. Auto weighing system.
3. Automatic temperature control, chocolate syrup feeding, coating and shaping, final products for different batches are of the same size and quality.
4. Automatic chocolate spraying and pouring in different production process.

**Technical Parameters:**

Output	200-300 kg/batch
Total Power	15KW
Dimension	2450-1650-2250mm
Net Weight	800kg
Belt Speed	5-20m/min
Belt Width	1650mm
Compressed Air	0.4MPa
Power Supply	380V 50HZ or customized
Work Temp	15-20°C, humidity≤50%
Refrigeration system	7HP Air conditioner for hot and cold air supply
Electronic part	Schneider, OMRON, SMC
PLC	DELTA
Language	English/Russian/Chinese
