

Plastic Bottle Blowing Machine XLB-06C

The Plastic Bottle Blowing Machine is suitable for producing plastic hollow products of PE, PP, EVA, ABS, K material, TPU, nylon and other materials. Four-guide column balanced pull rod structure, through-type super-hard quenching and tempering guide column and full open template design, our Plastic Bottle Blowing Machine can accommodate super long and wide mold. It is optional to produce products beside or below, which is convenient for producing different products.

Due to the advanced Touch screen man-machine interface, our Plastic Bottle Blowing Machine ensures simple operation and setting. The double proportional valve controls the flow rate and pressure of the oil circuit, the reversing valve controls the flow direction, the deceleration valve brakes, and the action is smooth and fast.

Technical Parameter:

Model Number	XLB-06C
Voltage	380V/3PH/50HZ
Power(W)	60KW
Dimension(L*W*H)	6200*2280*2160mm
Weight	620kg
Certification	CE
Warranty	One year
After-sales Service Provided	Engineers available to service machinery overseas
Product Description	6Cavity Semi Automatic Pet Bottle Blowing Machine
Raw material	PET Preform
Cavity number	6 cavity
Bottle size	750ml
Bottle neck size	18mm-38mm
Output	5500-6000BPH
Suitable bottle	Water Bottle, Juice Bottle, Carbonated Drink Bottle.etc
PLC	Siemens.ect
Key words	Pet Bottle Blowing Machine
