

YCW210 Gen Purpose Checkweigher Easy Weight

The machine can automatically reject underweight and overweight products from the line.

Application: to weigh products automatically, suitable for inspecting the weight of a single product, as well as for inspecting the whole carton for missing items.

Technical Parameters:

Checking range	Kurang dari atau sama dengan 1000 g
Accuracy	± 0.2 g - ± 1.0
Minimum scale	0.1 g
Throughput	20-110 m/min
Optimal throughput (pcs/min)	160
Suitable product dimension (mm) L	kurang dari atau sama dengan 300 g
Suitable product dimension (mm) W	kurang dari atau sama dengan 210
Weight belt dimension (mm) L	400
Weight belt dimension (mm) W	210
Rate Power (Kw)	0.15
Compressed Air	0.6-1 Mpa
Nozzle Connector Type	$\varnothing 8$ mm
Control Module	High speed A/D Sampling Module
Product Preset	99
Rejecter	Swing Arm
Dimension (L x W x H) mm	1600x682x1365
