

XH-500 Single Chamber Vacuum Packaging Machine

XH-500 single chamber vacuum packaging machine is a semi-automatic vacuum equipment. Just press the vacuum cover, then it will automatically complete the process, sealing, printing, cooling, and exhausting. It can prevent effectively mildew, corrosion and dampness and can remain fresh and extend the shelf life of the product.

Applicable material

Suitable for vacuum packaging food, medicine, dumplings, beef grain, beef jerky, sauerkraut, spicy dried fish, dried meat, lamb, turtle, chicken, chicken wings, jujube, string of incense, nuts, native products, aquatic products, chemical raw materials and other solids, powder, paste, liquid, electronic products (semiconductor, circuit boards, electronic products, etc.) and metal processing parts.

Technical Parameter

| Model | XH-500 |
|-------------------------|---------------|
| Sealing length | 400mm |
| Double row spacing | 370mm |
| Material putting height | 80mm |
| Packing capacity | 2-4 / minute |
| Voltage | AC380 50HZ |
| Power | 1.2KW |
| Extreme vacuum | 200PA |
| Vacuum pump | XD-020 |
| Weight | 85KG |
