

## ***JS-20CC Rotary Cup Filling Sealing Machine Coffee Powder Filling***

Rotary Type Coffee Capsule Filling Sealing Machine is suitable for filling various types of coffee capsules (such as nespreso / k-cup / lavazza). Can automatically complete the capsule cup's automatic drop cup, automatic filling, automatic suction film, sealing, automatic cup and other functions. The machine uses the Japanese ohm long programmable logic controller, pneumatic control element, intelligent digital display temperature control system, with the features of high sealing strength, good sealing performance, low failure rate and small floor space.

### **Applications:**

It is mainly used in the products packing like: Tea powder or grains tea coffee powder, milk powder, rice, wheat powder and so on.

### **Technical Parameter**

Cup diameter(mm)	37( cup standard size or customized)
Filling accuracy	±1%
Productivity (cups/H)	1200-1500
Filling capacity(g)	5 (Nespreso cup standard filling volume)
Gas consumption (m <sup>3</sup> /min)	0.6
Power (kw)	1
Voltage	220V 50Hz
Machine dimension (L*W*H/mm)	1250*1250*1650
Machine weight(kg)	250
