

## *IN-800Y Automatic Liquid Filling Machine Milk Packing*

Apply for fast hot water bags, biological ice bags, medical cooling ice bags, food and beverage distribution soup bags and other liquid bags

### **Performance characteristics:**

1. The drive-control core of whole machine is composed of the touch control programmable operation and a large display touch screen of servomotor, therefore this machine is excellent performance and simple operation;
2. The machine combines with the filling machine can complete the measurement, feeding, filling bag .date printing .finished product delivery of the entire packaging process;
3. The perfect automatic alarm protection function can help troubleshooting timely and reduce the loss to the minimum;
4. The intelligent temperature controller is used to ensure the seal is beautiful and smooth, And the anti-sticking treatment was made on the cutter point;
5. The filling and feeding system adopts a professional anti leakage and interception mode. thereby avoiding the phenomenon of poor sealing;
6. The whole machine is made of SUS3004 food grade material which food safety is assured and reliable;
7. According to customer requirements, we can customize the feeding system so that labor costs can be saved

**Technical parameters:**

<b>Model NO.</b>	<b>IN-800Y</b>
Measurement range	100-1000^ (can be customized according to requirements)
Measurement accuracy	±1%
Produce speed	25-55 quill minutes
Packing Material	OPP/PE, PET/PE. Aluminized film and other heat-sealable composite materials
Bag size	L100-260 xW80-160(mm)
Voltage	220V50/60HZ about 1.8KW
Dimension	^L1300xW900xH1800(mm)
Weight	350Kg
