

## *JTB-A type of high-speed self-adhesive Labeling Machine Ampoule*

### **Purpose and brief**

This machine is a dedicated high-speed ampoule bottle adhesive sticker. Operational control by the Mitsubishi PLC and touch screen to complete, reliable control and easy operation; using a standard servo system, a standard high-speed, good stability; coding used in Japan SMC pneumatic systems, speed, repeatability; user-friendly design to replace specification simple and convenient.

### **Main technique parameters**

Production capacity: 150 ~ 450 bottles / min  
Applicable specifications: ampoule or similar bottle  
Labeling rate:  $\geq 99.5\%$   
Power supply: 220V 50Hz  
Power: 1.5Kw  
Dimensions: 1800 × 1400 × 1400
