YX-A100 Automatic Labeling Machine for Tubes

YX-A100 Automatic Labeling Machine for Tubes characteristics:

This labeling machine is mainly suitable for the cosmetics, individual nursing with profession and so on mouth, food, chemical industry hose packing tubes pastes the sign. The high accuracy, the redundant reliability and the efficiency satisfied the customer to paste the sign machine request; but our superiority lies in the reasonable design, leading processing craft and high precise assembly, fine post-sale service. This equipment simplicity of operator, replaces the mold and the label convenient, easy to clean and the maintenance service, causes the user the use cost to be low is the hose pastes the sign the ideal equipment.

- Intelligent Mitsubishi servo labeling system.
- The machine response is fast with pinpoint high-speed labeling positioning.
- Easy to operation and to adjust.
- Stainless steel construction.
- Support different tube size with different pucks.

Model	YX-A100
Labeling speed	40-60 tubes/min.
Labeling accuracy	± 0.5mm
Label diameter (Max.)	350mm
Label width (Max.)	200mm
Tube diameter (Max.)	65mm
Tube diameter (Min.)	19mm
Tube length (Max.)	220mm
Label Reel Core Diameter	76.2mm
Power	220V 50Hz 3000W
Weight	300kgs
