

## A2000 Labeling Machine

This labeling machine adopts PLC control and its electric subassembly is world famous products such as Japan "OMRON", Taiwan "MCN", French "TE" electrics.

The sticker labeling machines have the following characteristics.

- Machinery design adopts French technology.
- Reasonable design
- Harmonious action
- High reliability and convenient to use.
- Label-pasting is correct and flat.
- Applied to surface labeling of square and oval container.

### **Effective function:**

This sticker labeling machine is with a wide range of application, applied to chemical, pharmacy and food fields, and etc and European rule standard.

It can stick 1 -2 labels on round container at the same time Model

<b>Model</b>	<b>A2000</b>
Power supply	IP 220V 50Hz 400W
Air pressure	2-5kg/cm <sup>2</sup>
Applicable container range	Height 40-200 mm, Diameter $\phi$ 25-100 mm
	( $\geq \phi$ 100mm need to customize)
Applicable material	adhesive sticker
Applicable label range	L(15-300)mm x H(15-120)mm
Space between labels	$\geq 3$ mm
Lable scroll	Inner dia $\phi$ 76mm, Outer dia $\phi$ 280mm
Direction of label scroll	clockwise
<b>Labeling speed :</b>	
One label	0-25pcs/min (depend on the bottle size and the Label length)
Two labels	0-15pcs/min (depend on the bottle size and the Label length)
<b>Labeling precision :</b>	
One label	$\pm 1$ mm (except container error)
Two labels	$\pm 1.5$ mm (except container error)
Table height	950mm
Machine dimension	LI 800mmxWI 1 00mmxHI 700mm
