

Automatic Packaging Machine with Chain Hopper DXDD-40II

This highly automatic packing machine has adopted a PLC programmable controller as well as an English and Chinese display screen that makes it easy to operate and convenient to be adjusted.

Product Details

1. This highly automatic packing machine has adopted a PLC programmable controller as well as an English and Chinese display screen that makes it easy to operate and convenient to be adjusted.
2. The use of advanced photoelectric digital tracking system makes it possible to set the length of package and when packing film with sensor mark is used, the first package is able to seize the sensor mark and get correct designed
3. Synchronous package pulling system makes the movement of the packages smooth and accurate.

Parameter:

Model	DXDD-40 II
Voltage (V/HZ)	AC 220/50 110/60
Power (W)	1300
Capacity (bags/min)	50-90
Packing Capacity (ml)	5-40
Length of Bag (mm)	50-110
Width of Bag (mm)	30-80
External Dimensions (L×W×H) (mm)	1140×600×1780
Net Weight (kg)	350
