

YL-550 Case Packer Machine

YL-550 Case Packer Machine can be customized according to customer's requirements, it can automatically put products into cartons, the machine is controlled by computer, easy to operate, low noise, smooth operation, high degree of automation, reliable, latest design, compact confirmation.

Instruction

The machine is suitable for paper carton erecting automatically. It has function of cover-folding, sealing bottom with tape. It is economical and it is with high high-efficiency. It is ideal automatic carton forming and bottom sealing equipment.

Technical Data

Machine dimension	L2200mm×W2100mm×H1500mm	
Applicable case range	W: 150 –510	Case inner size 555*245*530mm
	H: 100- 500	Fill way :6*4*4=96cartons/case
	L: 200 –800	Carton size 130*90*58
Case capacity	1-2cases/min	
Case material	General specification corrugated paper	
Suitable tape	W(48,60,72)mm * L(1000y)	
Case size exchange	Handle adjustment for about 1 minute	
Power supply	220V/380V ; 50/60HZ	
Air pressure	5.5-6kg/cm2	
machine weight	About 400Kg
