

SF320/620/720/820 Multi-lane Stick Pack Packaging Machine

We offer 1g to 100g sachet and stick pouch automatic packaging solution.

The 4-12 lanes multi-lane type industrial packaging machine with the capacity of making 100-540 sachets per minute for high production and efficiency.

The single lane type small powder packing machine with 20-45 sachets per minute is suitable for entry-level business.

At the same time, we also provide secondary packaging equipment, such as counting device, cartoning machine and bag-in-bag vertical packaging machine.

Features:

1. The whole machine is controlled by PLC program. The function parameters are set by man-machine interface touch screen. The main electrical components are famous brands at home and abroad. The control is stable and the operation is simple;
2. It has functions of automatic filling, measuring, bag making, sealing, printing batch, counting, and finished product output;
3. The horizontal seal adopts independent servo control, the structure is simple and reliable;
4. The film running stable and has the function of cursor correction and compensation;
5. The storage bin adopts continuous automatic vacuum feeding;
6. The filling machine is detachable, easy to install, easy to clean and disinfect;
7. 4 to 12 lanes can be packed according to the width of the bag;

8. The machine can be connected with the mending line and automatic cartonning equipment to be a complete line.

Technical Parameters

Model	SF320	SF620	SF720	SF820
Track numble	4-8 track	4-12 track	4-12 track	4-12 track
Filling method	piston filling, auger filling, volumetric cup filling			
Capacity	30-45 cycle/min			
Stick size	L:50-180mm	L:50-180mm	L:50-180mm	L:50-180mm
