

Granule Product Automatic Weighing Filling Line

Automatic depalletizer (empty can) → Unscrambling can Machine → Vibration feeding, material elevator → Combination scale weighing → working platform → Automatic positioning filling machine → can seamer → labelling machine, etc

Features

- Applied to automatic measuring, filling, sealing, labeling, coding and other automatic production lines for various granular products
- Applicable bottle materials include PET\glass bottle\tinplate, etc.
- Applicable materials: all kinds of nuts, snacks, grains, fruits, etc

Technical Parameters

Name	Fully automatic granular Tin line
Voltage	AC380V 50Hz
Air pressure	6kg/cm ²
Air consumption	1.45m ³ /min
Bottle material	307#/401#/502#/300#/PET, glass bottle, tinplate Glass bottle, tinplate etc
Production speed	30-120 bags/min
Measurement accuracy	≤+0.5%
