

ALT1100 Tabletop Top-Labeling Automatic Machine

The ALT1100 is a compact, high-efficiency tabletop flat surface labeling machine, perfect for labeling foil bags, plastic bags, paper boxes, and meal boxes. Equipped with a high-precision imported photo-eye and stepper motor, it ensures fast and accurate labeling. The brush and sponge roller design guarantees smooth label application without lifting edges.

Its intuitive microcomputer interface with button controls allows easy operation without specialized training, reducing labor costs. With a maximum output of 3 600 labels per hour, the ALT1100 delivers cost-effective automated labeling solutions for small and medium enterprises. Suitable for food, bakery, cosmetics, skincare, and creative products, it can label tops, sides, or bottoms and integrate with feeders or coding modules for customized production lines. Compact and space-saving, it boosts productivity and supports smart manufacturing initiatives.

Description

- Japanese photo-eye with labeling mechanism ensures precise and attractive labeling
- User-friendly interface design for simple and easy operation
- Stepper motor drive provides smooth labeling; height and angle adjustable
- Compatible with various products and labeling positions for flexible applications
- Compact size saves space and allows integration into automated production lines

Specification

Model	ALT-1100
Machine Dimensions (L×W×H) mm	580W × 950D × 730H mm
Power Supply	110/220 VAC, 50/60 Hz
Labeling Speed (pcs/min)	30–60 pcs/min (depending on label size)
Label Width	10–100 mm
Label Length	10–300 mm
Label Head Drive	Stepper Motor
Label Roll	Inner Ø 75 mm, Outer Ø 300 mm
