

Smart Inkjet Coding Sealer SMT-280M

This machine is suitable for sealing various types of heat-seal packaging bags, including aluminum foil bags, plastic bags, composite bags, Kraft paper, freshness bags, tea bags, and shrink film. It offers secure sealing and high efficiency, making it widely used in industries such as food, medicine, chemical, agriculture, and lubricating oil.

Features Overview

- Quad-core high-performance processor
- 5-inch IPS HD touchscreen
- Instant printing and sealing
- Various coding contents
- Continuous maintenance and optimization
- Intelligent printing settings

Technical Parameters

Model	SMT-280M
Power Supply	220V/50Hz 110V/60Hz
Power Consumption	1650W
Sealing Speeds	0-25m/min
Sealing Width	10mm
Temperature Range	0-300°C
Printing Category	Steel stamp
Conveyor Loading	Unit weight ≤15kg
Shipment Dimension	1290x545x1000mm
G.W	98kg
