

SH-AFC23A Automatic High Precision Servo Piston Pump Beauty Makeup Lip Gloss Tube Mascara Filling And Capping Machine

Main Feature

- ▶ Servo system controls filling and capping, you can set your production volume directly. Which has high accuracy.
- ▶ This monoblock machine can finish tube feeding, filling, inner plug & cap placing and tightening automatically.
- ▶ Has high filling accuracy, error ± 0.1 ml.

Parameter

- Voltage: 220V/110V 50-60Hz
- Power: 3kW
- Production Capacity: About 20-30 pcs/min (depending on filling materials and product size)
- Filling Range: 1-20ml (Can be customized)
- Filling Pump: Servo Piston Pump
- Filling Error: ± 0.1 ml
- Suitable Product Size: Can be customized
- Hopper Specification: 20L Pressurized Hopper
- Air Pressure: 0.6-0.8MPa
- Machine Size: About 1401*1274*1705mm/ About 55.2*50.2*67.1 in
- Package Size: About 2050*1550*1570mm/ About 80.7*61*61.8 in
- Package Weight: About 700KG
