

GX-200 High-speed capping machine (capper + elevator)

GX200 is economical, and easy to operate.

This versatile in-line capper handles a wide range of containers at speed to 200 bottles/min and offers a quick and easy change over routine that maximizes production flexibility.

The tightening discs are gentle which will not damage caps but with an excellent capping performance.

Features:

- Capping speed up to 200 bottles/min
- One button to adjust height
- Wide applicability for various caps and bottles
- Auto stop and alarm when lack of cap
- Stainless steel frame
- 3 sets of tightening discs
- No-tool adjustment
- Choice of various types of cap feeders

Technical Parameters:

Capping speed	50 - 200 bottles/min
Bottle size	ϕ 30 - 120 mm
Cap size	ϕ 20 - 50 mm
Power	1.3 KW
Power supply	AC,220V/50-60HZ 1 phase
Working direction	Left → Right (or Right → Left)
Net weight	850 kg
Overall size	1800x1000x1850 mm (Length x Width x Height)
