

GPW-02/03 Winding Machine

In order to meet the packaging requirements of containerized storage, transportation, and mechanized loading and unloading operations of goods, a series of automatic film winding products including tray type, top press type, anti pull type, and pre pull type have been designed and produced. These products are widely used in foreign trade exports, food and beverage, canning, papermaking, dyes, plastic chemicals, glass ceramics, mechanical and electrical castings, and other products for container costs, improving production efficiency, preventing damage to goods during transportation, and playing a role in dust prevention, moisture prevention, and cleaning.

Product Features:

- Suitable for fast transportation or storage;
- Strong adaptability, high efficiency and low consumption, reducing labor intensity;
- Can play a role in dust prevention, moisture resistance, and cleaning of packaging materials;
- Reduce surface scratches on packaging materials, improve surface quality, and make packaging more secure.

Technical Parameters

主要技术参数 Main Technical parameters			
型号	Model	GPW—02	GPW—03
转台马达	Motor on turn table	0.75KW	0.75KW
放卷升降马达	Motor on film lifter	0.18KW	0.18KW
电源	Power supply	220/380V, 50Hz	220/380V, 50Hz
机器尺寸	Overall dimension	L1510*W2500*H2600mm	L1510*W2500*H2600mm
最大包装高度	Max. height of package	2100mm	2100mm
最大包装质量	Max. weight of package	2000kg	2000kg
转台直径	Diameter of the turn table	1500mm	1500mm
净重	Net weight	530kg	600kg (压架重量未计)
