

STB-15N

Tea Bag & Paper Envelope Packing Machine

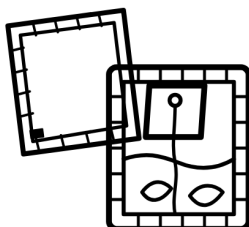

Produce a filter tea bag with string and tag, add a paper envelope, and group finished sachets before manual boxing.

Finished package

Filter tea bag inside a paper envelope

The paper envelope uses a pressing and sealing process. It is distinct from a heat-sealed laminated-film envelope.

Packaging format illustration; final material and dimensions follow sample confirmation.

STB-15N | Reference specifications

Maximum dosing volume	6 cm ³
Filter-paper width	125 mm
Filter bag size	62.5 x 50 mm
Tag size	28 x 24 mm
Thread length	210 mm
Reference power	1.2 kW
Reference dimensions	1700 x 900 x 2000 mm
Reference net / gross weight	650 / 810 kg

Actual output, accuracy, materials, utilities and optional equipment must be confirmed in the project technical agreement.

For configuration review: provide tea samples, target dose, bag dimensions, packaging material, required output and destination electrical supply.
