

## ***TMP-300E/400E Automatic Cellophane Overwrapping Machine***

Haichina Machinery Co.,Ltd is one of the best TMP-300E/400E automatic cellophane overwrapping machine manufacturers and suppliers in China, equipped with productive factory, welcome to buy discount and high-quality perfume box wrapping machine, automatic overlay wrapping machine, shrink wrapping machine china supplier, cellophane packaging machinery, Bopp over wrapping machine, overwrapping machine used products from us and check the price with us.

### **Overwrapping machine**

Overwrapping machine or cellophane overwrapping machine. Overwrapping machine is suitable for the automatic packing of box-shape single objects or box-shape many objects such as pharmacy, food, health products, and tea, cosmetic present stationary, audiovisual products etc. Overwrapping machine can replace the box in the paper and also can reduce the packing cost about 95%. Using the machine to pack can defend take proof moisture and proof dust, and etc. Overwrapping machine improve the productions level, increase the productions additional value. Overwrapping machine can be linked to with boxing machine to compose packing production line.

Over Wrapping Machine is widely applied in the products, such as Medical box, Gum, Health products, Tea-leaf, Cubic-sugar, Disk, condom, Cigarette, tape, Poker, Soap, Square-share battery, and etc

Overwrapping machine is also known as cellophane wrapping machine is majorly used for perfume carton wrapping, perfume box wrapping.

Overwrapping machine is majorly used for clear film wrapping for condom box, condom cartons.

Overwrapping machine is comes in category of wrapping machine for sealing of cartons.

Carton overwrapping is main application for all types of cartons packing, box packing, in perfume bottles to seal the film for aesthetic sense.

Overwrapping machine is wrapping machine for Bopp film wrapping use.

The machine provides high work speed from 30-150 packages one minute, Range of sealing bar widths and a multiple sealing bar option. For all applications that require longitudinal sealing on the bottom of the product.

There are a number of different feeding systems although the standard one has push rods.

Provide good protection to products to dustproof waterproof.

### **Main Features of Overwrapping machine**

1. Adopting the man-machine interface, PLC control, Failures diagnosing software .
2. Adopting the servo motor to feed film. The speed and the length can be adjusted .Using the film smooth and length accurate.
3. Adopting full cylinder drive. Steady running. Accurately. Synchronizing conveniently adjusting hard sealing.
4. Compact structure. Easy to operation and Manipulating complete safety device

### **Main Technical Parameters of Overwrapping machine**

<b>Model</b>	<b>TMP-300E</b>	<b>TMP-400E</b>
Packaging material	OPP,BOPP , PVC	
Production capacity	5-30 package/minute	
Bag size (mm)	L(50-300)*W(40-220)*H(10-90)	L(50-400)*W(40-250)*H(10-90)
Power supply	AC380V 50Hz, 6.5Kw	
Working pressure	0.6 Mpa	
Air consumption	400 L/min	
Weight	750 kg	850 kg
Outline dimensions (mm)	2450*900*1750 mm	2450*1000*1750 mm
Size of feed table (mm)	1650*320*930
