

## *HM LDM 0002 - Semi Automatic Liquid Filling Machine*

### **Product Details**

The unit is built on a chassis which has wheels to move easier.

The system is electro-pneumatic

### **Volumetric Filling**

There are various models with different volume ranges:

25ml - 250ml

50ml - 500ml

100ml - 1000ml

250ml - 2500ml

500ml - 5000ml

There are 2 filling nozzles, pneumatic-check valve

The unit can be used in both ways:

Manual: The operator has to press on foot pedal each time of filling

Automatic: The operator presses on foot pedal only once to start automatic filling, the operator just changes the containers. To stop the process, operator presses on foot pedal once again.

The containers are put on unit, under the nozzles by hand, manually.

There is no dropping or wasting of the product while filling. The maintenance and usage is so simple and easy.

## Technical Specifications

<b>Air pressure:</b>	6 bars
<b>Max production capacity:</b>	1500 pieces / hour
<b>Max filling capacity:</b>	100 ml
<b>Air consumption:</b>	200 Liters / minute
<b>Depth:</b>	30 cm
<b>Width:</b>	30 cm
<b>Height:</b>	40 cm
<b>Net Weight:</b>	15 kg
<b>Gross Weight:</b>	20 kg
