

## *T180 Automatic Round Edge Pillow Bag Granule Packaging Machine*

It is suitable for round edge pillow bag packing for many products, such as black tea, green tea, jasmine tea, white tea etc in grain shape.

### **Features:**

1. The machine can be used with a variety of filling system for powder, grain and liquid products packing.
2. Bag making, filling, sealing, cutting, counting can be done automatically
3. Film pilling and heat sealing is controlled by servo motor, which ensures perfect bag package.
4. Machine parts in direct contact with products to be packed are made of SUS304 stainless steel.

### **Technical data:**

- Product model: **T180**
- Product name: Automatic Round Edge Pillow Bag Granule Packaging Machine
- Pack Materials: paper/plastic, plastic/plastic, plastic/aluminum/plastic, paper/aluminum/plastic
- Filling range: 1~100ml(accuracy:  $\pm 1\%$ )
- Packing speed: 40~50 bags/min (single lane, depending on the bag length and products conditions)
- Bag Type: center sealing, pillow bag
- Bag Size: L  $\times$  W= 30~150mm  $\times$  15~85mm
- Film Width:  $\leq 180$ mm (one piece of bag former will be provided together with the machine)
- Packing Film: composite package materials
- Air Pressure: 6kg
- Air Consumption: 0.3m<sup>3</sup>/min
- Power: single phase, 220V, 50HZ, 1.5KW
- Weight: 450KG
