

Automatic High Speed Cartoning Machine DXH-200

DXH-200 High-speed Automatic Cartoning Machine belongs to the continuity, High speed, incorporated pneumatic-photo-electro-mechanic High technology products. The machine suitable for automatic feeding and packing products such as ALU-PVC Blister, bottle, cosmetics, commodity, hardware, card, and some other similar products into the carton, which can automatic finish the leaflet folding, carton opening, feeding, printing lot number, sealing, ect.

The machine adopt PLC control, and the photo electricity detecting each parts, can automatic show the reason when the machine stopped by abnormality, easy for eliminate the failure. The machine can be used single or joint with Pillow-Type Packing Machine or other equipment for a production line.

Features:

- Adopt International famous brand of electrical component such as PLC, Frequency inverters, etc.
- Adopt Human-machine operation system.
- Servo feeding suitable for different specification Alu-PVC blister, automatically stop when machine is overloaded.
- Automatically reject lacking of package products and leaflet.
- Automatically display trouble, alarm and counting.
- Stable performance, easy operation.

Technological parameter:

Model	DXH-200	
Speed	80~200boxes/min	
Box	Quality requirement	250~350g/m ² (according to the dimensions to confirm)
	Dimension(L × W × H)	(70-200)mm × (50-120)mm × (14-70)mm
Leaflet	Quality requirement	60-70 g/m ²
	Unfolded leaflet Specification	(80-260)mm × (90-190)mm
	Folded Leaflet Specification	1-4 fold
Compressed air	Working pressure	≥ 0.6mpa
	Air consumption	20m ³ /h
Power Supply	380V 50HZ	
Motor power	2.2kw	
Machine Dimension(L×W×H)	4500 × 1800 × 1880mm	
Weight	2500kg
