

BF-L10 Automatic Powder Bottle Filling Machine

This automatic bottle filling machine is mainly suitable for powder bottle filling with auger filler.

Features:

- Automatic filling for barrel and jar.
- Stainless steel 304 frames construction.
- Auger filler feeds for powder.
- Explore chain belt conveyor with the automatic bottle positioning system.
- Speed control gear motor drives.

Specifications:

Filling Range	10~1000g
Weighing Precision	+1~3g
Packing Speed	8~12 bottles/min.
Voltage/Power	AC380V 50HZ 0.75kw
Air Consumption	0.36m³/min.
Bottle Material	Glass, PET, Aluminum, Iron
Bottle Size	Mouth dia.: 6~12cm; Bottom dia.: 8~15cm; Max. height; 18cm
Machine Dimension:	L*W*H=3000*750*1750mm
Weight	240kg

Options:

- Infeed & outfeed rotary tables
- Coding machine for data/batch printing
- Infeed conveyor
